

# International Women's Day at the NCC

---

**Name:** Naomi Korolanyi  
**Job role:** Director of Business Transformation  
**Nationality:** White British

I joined the NCC as an HR Advisor 9 years ago. I was inspired by the vision to grow the engineers of the future and today I have the opportunity to shape that vision.

## Three things I love about my role are:

- The opportunity to work with brilliant people to solve some of the world's most complex engineering challenges.
- Being part of a network of (Catapult) centres who challenge and support each other to be world leading in technology, sustainability and our people practices.
- Working with people who genuinely believe that diversity is critical to innovation and are working hard to change the status quo.

Karen Brady has always been a massive inspiration for me. She entered a male dominated environment and completely changed the attitude to women in football (and leadership) at the time.

I would give my younger self the following advice:

- Trust your instincts
- Be brave, not perfect
- Collaborate, don't compete
